

INSTRUCTIONS TO SUBMIT A MANUSCRIPT TO THE PROCEEDINGS OF THE TWENTY-FIFTH WORKSHOP ON QUANTUM SYSTEMS IN CHEMISTRY, PHYSICS AND BIOLOGY QSCP 2022

The Proceedings of the Twenty-fifth Workshop on "Quantum Systems in Chemistry, Physics, and Biology" (Toruń, Poland) will appear in "Progress in Theoretical Chemistry and Physics" (PTCP, Springer) in September 2023.

If you wish to submit a contribution to the Proceedings, please note that the **deadline for submitting manuscripts has been set to February 28th, 2023**. Please **submit your manuscript via email** to the Proceedings editors: Ireneusz Grabowski (ig@umk.pl) with a copy to Karolina Słowik (karolina@umk.pl).

Please find below instructions related to the manuscript preparation:

1. Please get familiar with the Springer Author Guidelines

<https://www.springer.com/gp/authors-editors/conference-proceedings/conference-proceedings-guidelines>

2. To prepare your manuscript, please use Springer's tex or Word templates and available at the webpage linked above.

3. Please note that the PTCP series follows Chemistry reference style.

4. Please note that all illustrations will be available in full color in the eBook but in black and white in the printed book. If color is essential for individual figures in the printed version, please list the corresponding figures in a separate spreadsheet.

5. Optimized keywords and abstracts help ensure your work is found through any relevant online search. Please provide an abstract and keywords for your contribution. Abstracts will also appear online at SpringerLink.com with unrestricted access and enable unregistered users to read the abstract as a teaser for the complete work.

6. All authors of accepted manuscripts must grant Springer specific permission to publish the work ("consent to publish"=CTP). This is a legal requirement that arises from provisions of copyright law. For this reason, this should be done promptly using the form provided by Springer (available after acceptance of a manuscript). For contributions of multi-authored chapters, only one consent from the corresponding author is required. The scanned version of the CTPs and the final version of your contribution should be sent to the Proceedings editors: Ireneusz Grabowski (ig@umk.pl) and Karolina Słowik (karolina@umk.pl).
